The Sweetest Life

Join us on this journey and we will show you where the success of our company lies. A leading innovative, creative, and modern company, committed to satisfying the needs of the market from a quality, service and the protection of the environment perspective. In 1963 the Vidal family founded Vidal Candies, in the Spanish town of Molina de Segura, with a clear objective: to satisfy the needs of consumers worldwide.

Since our beginnings in 1963 with a production facility of a mere 70 square meters, our main objective has been and continues to be, to sweeten all corners of the globe with an innovative character and under a clear objective of expansion.

With this as an ever-present horizon, Vidal Candies soon became a pioneering brand in the manufacturing and marketing of confectionery products.

Currently, more than 60 years later, we proudly maintain a surface area of more than 210,000 square meters of modern machinery designed for the manufacturing, stockage and shipment of confectionery products. We have a production capacity of 75 million units per day, which makes us the first domestic manufacturer of our sector.

The continuous improvement in our machinery, increasing investment in resources, as well as in Research & Development, have turned Vidal Candies into a leading pioneering company in the fields of new product development, packaging and design.

Vidal has also been a pioneer in the creation of innovative products. Vidal Candies in 1997 was the first manufacturer of filled jellies, with the launch of our Jelly Filled Strawberries, which mirror the real image of a freshly picked strawberry. Since then, we have continued with our flair for innovative concepts with products such as pectin filled marshmallow, sour filled and liquid filled bubble gums, sour coated and filled liquorice (extruded candy), and many more All products with a high commercial value which have been accompanied by a major marketable success.

The creativity in packaging formats, flavours and textures; the innovation in designs and the continuous novelties launched in the markets, have made Vidal products a permanent success amongst consumers.

Relying on a strong distribution network, Vidal is able to reach more than 350,000 points of sale across the Spanish territory.

Outside our borders, Vidal commercialises its wide range of products in more than 90 countries throughout the five continents. We have subsidiaries in Germany (Vidal Deutschland GmbH), UK (Vidal Confectionery UK), France (Vidal France S.A.R.L.) Sweden (Vidal Scandinavia), Italy (Vidal Italy S.R.L), Portugal (Dutlim Produtos Alimentares, Lda.), United States (Vidal Candies USA Inc.), Canada (Vidal Candies Canada), Poland (Vidal Polska Sp.), Benelux (Vidal Benelux B.V.), Australia & New Zealand (Vidal Candies Oceania Pty Ltd) and South Korea (Vidal Korea Co. Ltd.). This structure give us greater distribution of the VIDAL brand for all consumers to purchase, as well as a first-hand approach to the complexities and the uniqueness of each market, adapting not only the development of the products but the presentation of formats with one clear objective: satisfying consumers requirements.

To assure that our products offer the maximum health and safety standards and food guarantees exceeding industry standards, Vidal has achieved the most prestigious Quality Food Safety certificates thanks to the commitment, determination and effort of all our teams within our organisation.

We were the first company in the sugar confectionery sector that obtained the Aenor Certificate for its System of Management of Quality as per the Regulation ISO 9001 in Spain, and we also obtained the Certification of the British Retailers Consortium (BRC) at its highest level as well as IFS.

In addition to this, Vidal's Kosher products are certified by the International Organization KF Federation Supervisory of United Kingdom. Its KF distinctive has a wide recognition throughout the world and provides the buyer and consumers the assurance that the product has passed the most rigorous testing and meets the strictest of standards set by the maximum religious representatives.

At the same time, Vidal, in its concern for the environment, has taken steps towards the implementation of the Integral System of Environmental Management as per the Regulation ISO 14001.

After more than 60 years of history, we continue to strive to improve all our processes to offer the best quality products striving towards our main objective of taking our candies to every corner of the world.
